JOHN FRANCIS GARCIA

Imus, Cavite | +63 9291318008 | jfgarcia0911@gmail.com | *https://jfgarcia0911.github.io/jfportfolio-2/*

Frontend Developer

Versatile Developer with remarkable experience in end-to-end software design and development and product management. Leveraged strong UI development skills to craft visually appealing and functional user interfaces for business applications. Proficient in React and Angular, I played a key role in integrating new functionalities, emphasizing modular and reusable components for efficient development. Skilled in server-side technologies like C# or Node.js for retrieving and manipulating data from both relational (SQL) and non-relational (NoSQL) databases and enhancing application functionalities.

Core Competencies: UI Development | Proficient in React and Angular Framework | Customer Interface Validation | Maintenance | Object-Oriented Programming | Proficient in C#, Java and Node.js Programming Languages | SQL & NoSQL | Application Design & Development | Team Building and Management | Database Management

Professional Experience

Accenture Inc. | Associate Software Engineer   **Apr 2023 - Jan 2024**

- Develop a dynamic and responsive contact-list and e-commerce application.
- Designed and implemented the user interface with a focus on responsiveness and a modern look using React components
- Thoroughly tested REST endpoints using Postman, ensuring the reliability and functionality of CRUD operations for enhanced application performance.
- Demonstrated excellence in identifying and implementing dynamic web solutions, contributing to the development of interactive and engaging user experiences.

SSIENTAEKKOREA (OFW) | Factory Worker   **Apr 2019 - May 2021**

- Instrumental in managing the assignment and coordination of incoming and outgoing shipments. Ensured timely processing and accurate documentation to facilitate smooth logistics operations.
- Oversaw the monitoring and scheduling of machine maintenance activities. Implemented proactive measures to minimize downtime and optimize machine performance.

B.A.G. Electronics | Warehouse Senior Associate   **Feb 2014 - Feb 2017**

- Monitored material movement efficiently using the SAP system, ensuring accurate tracking and timely updates. Employed SAP functionalities to streamline logistics processes.
- Proactively identified and resolved material discrepancies, maintaining the integrity of inventory records. Implemented corrective measures to enhance accuracy in material tracking.
- Successfully prepared and assembled items by packing lists, demonstrating meticulous attention to detail. Conducted thorough check-ups to guarantee the completeness and quality of assembled items.

Previous Experience: American Packing Industries Phils. Corp. - Quality Control Inspector | Service Mechanic - Kawasaki Motors Phils.

Education

ReactJS Trainee: Design & implemented a minimalist e-commerce application using the MERN stack (MongoDB, Express.js, ReactJs, Node.js)
Zuitt Learning Institute Incorporated

BS Industrial Engineering
De La Salle University Dasmariñas

Technical Credentials

Programming Languages:	JavaScript (ES6)	TypeScript	Java	C#
Web Technologies:	HTML5	CSS3	SASS	Bootstrap	Tailwind	jQuery
Libraries/Framework:	ReactJs	Node.js	Express.js	Angular	Spring boot	ASP.NET	ADO.Net
Database/Tools:	MongoDB	MySQL	SQL Server| Firebase	Git	Innersource	json-server	Postman

Training Programs

- Full-Stack Course (MERN Tech Stack - 2022)
- ReactJS - The Complete Guide 2023 (incl. React Router & Redux) Angular - The Complete Guide (2023 Edition)
- Angular 2023 Edition
- AWS Fundamentals
- Intro to Java for JS Developers (2023)
- Intro to MySql For MongoDB Developers (2023) AWS Fundamentals (2023)
- Introduction to OOP Fundamentals
- Advanced OOP with JS (2023)
- Git Complete: The Definitive step by step guide to Git
- WCAG 2.1 /2.2 Simplified With Examples
